THE EL PASO HERALD

GERMAN ARMY MOVE ON WARSAW

Carrancistas Capture Guaymas

ITURBE IS HOLDING PORT

Hermosillo Is Reported By Carrancistas Also As Being Under Assault.

CARRANZA TROOPS ARE WELL ARMED

Partisans of Carranza Claim He Is in a Position to Defeat Opposition.

FORCES under Gen. Ramon Iturbe, which have been advancing up the west coast from Sinaloa for the past two weeks, arrived at the outskirts of Guaymas and commenced shelling the city at daybreak Wednesday morning, capturing the city Thursday, according to advices received here Thursday. Gen. Iturbe was reinforced with a section of artillery and a section of machine guns.

The outposts at Guaymas were driven in after a brief resistance and the secondary defenses on the right and left wing were forced to give ground. The messages telling of the attack state that the battle was resumed early Thursday morning and that a heavy fire of shrapnel was directed into the city from the south and east, causing its surrender.

Attack on Hermosillo.
Col. Obregon, a brother of Gen. Alvaro Obregon, has opened a general attack on Hermosillo, according to the same advices. No details of the fight are given. It is stated that Obregon will immediately proceed to Naco and form a junction with Gen. Hill if he is successful in taking the state capital.

A small force of Villistas has been routed by Gen. Luis Caballero at Panuco, between Tampico and San Luis Potosi, according to messages received Thursday by Carranza agents. Both Villa and Carranza adherents claim that Caballero is loyal to their side. Messages have also been received which state that a band of Zapatistas, who cut the telegraph lines at Esperanza, on the Inter-Oceanic railway from Mexico City to Veracruz, have been dispersed and that the wire is now operating between the two capitals.

Vasquez Gomez Coming.
Emilio Vasquez Gomez is believed to be coming to El Paso in order to hold an important wire conference in Juarez with Zapata, according to advices received here from San Antonio. Gomez was slated Wednesday night by a delegation of Zapata followers, headed by F. Arriaga, who was recently appointed Zapata's agent at Washington, and L. Palafox, who has long been a Zapata representative in this country.

Gomez, it is stated, has been awaiting important communications from Juarez and failing to receive them, has decided to come to El Paso. He is reported to have made the statement that he would go to Mexico City from El Paso, provided Carranza would send 2000 men to accompany him as a personal escort. Shortly after midnight, according to the reports from San Antonio, Gomez disappeared. He was not located at an early hour this morning. This, coupled with the report that he had not received the expected messages from Carranza, led to the belief that he had left for El Paso.

Carrancistas Claim Much.
Gen. Pablo Gonzalez has 30,000 troops under his command in the district of eastern Hidalgo and the district to the seaboard, according to Celestino Ruiz, who arrived Wednesday from Veracruz. Mr. Ruiz is here on his way to Lower California, where a special commission from Carranza. He will leave tonight for the west and will probably make his first stop at Mexicali. It is believed that Col. Carranza's ex-federal commander there, has declared for Carranza.

The garrison at Ensenada, Lower California, has been taken over by Panatone Avila, the Villista commander of Lower California, and Avila has fled, according to reports received by the Carranza consulate. Avila is now accompanied by his secretary, Jose Ferrel, and is said to be making his way to San Diego, Cal.

Carranza Troops Well Equipped.
"Troops loyal to Carranza are not only numerous, but they are well equipped and well officered," said Mr. Ruiz. "All of the country south of Mexico City is in our control, besides all of the east coast of Mexico, to points stretching well inland, and practically all of the west coast, with the exception being a small strip in Sonora. Gen. Jesus Carranza is in Teple with 10,000 men and is operating in conjunction with Gen. Ramon Iturbe. The two forces number at least 20,000 men and the campaign against Sonora is already well under way."

"All of the Carranza troops are well equipped. They have much artillery and plenty of ammunition of all grades. The leaders of Mexico, military and civil, have pledged their loyal support to the first chief."

Many Spies Coming Here.

"The evacuation of Veracruz was perfectly orderly and the entry of our troops was the same. There are now 15,000 Carranza troops in the port and they control the railroad for many miles inland. When the American

The War At a Glance

ALTHOUGH the opinion is expressed by foreign military critics that operations on a large scale are in progress in France and Belgium, today's official announcements from Paris and Berlin tell of no important battles. The fighting in the east likewise has diminished in intensity.

The German war office statement reports that nothing of importance has occurred, west or east.

The French announcement speaks of violent artillery fire near the North sea at Newport, in the vicinity of Ypres, and between the rivers Lys and Somme. German forces persist in their infantry attacks in the Artois region, but so far as has been disclosed, have made little progress. The barrier of water which helped the allies to check the German advance toward the French coast has been extended, further territory having been inundated to the south of Dixmude.

Krupp Factory Bombarded.
The Krupp factory at Essen, which supplies the German army with its great guns, is said to have been bombarded by an airplane, though with what effect is unknown.

TOOK BELGRADE WITH BAYONETS.
It is asserted it is assumed that the capture of Belgrade by Austrians was accomplished in a battle with bayonets. This version is in accordance with reports from that the Serbian troops evacuated the city.

KING VISITS FIRING LINE.
King George was on the firing line in France today. Emperor William, who recently visited his troops in east Prussia, is now said to be in Breslau, Silesia, where he conferred with archduke Frederick, commander of the Austro-Hungarian army.

ENVELOPING RUSSIANS.
THROWING BACK.
For the first time since the Germans were checked in their advance on Warsaw, it was possible today to gain a fairly clear idea of the military in Russian Poland in its broader aspect. Advices from both Berlin and Petrograd indicated that the Germans had definitely succeeded in throwing back the enveloping Russian forces and were maintaining solidly their positions west of Lodz. Furthermore, it is said that the Germans are again undertaking an energetic offensive.

GERMANS HOLD THEIR GROUND.
The completeness of the change in the situation, ascribed variously to the failure of the Russian general Rennenkampf, to close up the ring about the Germans, and to the brilliant strategy of the German leader, is indicated by a report telegraphed from Petrograd by an English correspondent, who previously had announced that the Russian army was holding its position. He now states that the Germans are holding their positions and that the situation "remains extremely serious."

The latest official announcement from Petrograd states that the fighting has become less severe.

RUSSIAN LOSSES 1,000,000.
A Russian critic estimates that the Russian losses in killed, wounded, prisoners and death from sickness, amount to fully 1,000,000, or fully one-third of the nation's best troops.

In Galicia the situation is still confused. Recent reports from Petrograd that the Russians had invaded Cracow on three sides are now contradicted by an unofficial dispatch, which says that the invaders are eight miles from the city.

PRZEMYSL ABOUT TO FALL.
The archbishop of Przemysl, the Galician stronghold which has been held by the Russians, has been quoted as saying the situation there is desperate and the surrender of the city impending.

WAR LOAN VOTED.
Germany's determination to prosecute the war relentlessly is reflected in the virtually unanimous vote of the Reichstag for a war credit of \$1,200,000,000, a special imperial chancellor's declaration that his country would fight to the last breath.

He's Neutral, But—
He Raps the Germans

Washington, D. C., Dec. 2.—"I have been asked to be neutral and I am neutral when I say that all the water in the river Rhine could not wash the blood and shame from Germany's mailed fist."

This was the bitter comment today of the Rev. Newell Dwight Hillis, pastor of the Plymouth church, Brooklyn, who was a delegate to the World's Bible conference, on the German devastation of Belgium.

Of the general results of the war, Dr. Hillis declared that a Democratic government similar to the country's will supplant the autocratic rule of Europe's crowned heads.

AMERICAN FIRMS BUILD SUBMARINES FOR EUROPE

San Francisco, Calif., Dec. 2.—Many submarines for use in European warfare are now being built in the United States, it became known Wednesday. Eight are under construction at the Union Iron Works, which is owned by the Bethlehem Steel corporation, of which Charles M. Schwab is head. The boats are to be shipped in sections to Europe.

Twelve submarines are reported to be under construction by the Fore River Shipbuilding company at Quincy, Mass. This company is also a part of the Bethlehem steel corporation.

"WOLF OF WALL STREET" IS CONVICTED

Two Years in Federal Penitentiary Is Sentence Imposed By Court.

END OF TRIAL COMES QUICKLY

Lamar Impersonated Representative Palmer Over the Telephone, Is Charge.

NEW YORK, Dec. 2.—David Lamar, a Wall street broker, was today found guilty of impersonating representative A. Mitchell Palmer of Pennsylvania, for the purpose of defrauding J. P. Morgan and company and the United States steel corporation. He was immediately sentenced by the federal court to serve two years in the federal penitentiary at Atlanta, Ga.

In impersonating a United States representative, Lamar's purpose was said to have been to induce J. P. Morgan and company to employ the services of Edwin Lauterbach, an attorney. His attempt was said to have been made in a telephone conversation with W. Cass Ledyard, who testified Wednesday as to the purpose of the conversation.

Identifies Identity.
Counsel for Lamar said it would be admitted that the person who telephoned, purporting to be representative Palmer, was Mr. Lamar. No testimony was introduced by the defense, counsel allowing the case to rest on its merits.

Lamar achieved notoriety by spectacular operations in the New York financial district. He came to be known as "the wolf of Wall street." He gained further prominence by testifying at the congressional inquiry into alleged lobbying.

TWO HOUR STRIKE IS SCHEDULED FOR FRIDAY

Lynn, Mass., Dec. 2.—A two hour strike of 7000 United Shoe Workers here has been called for Friday. The operatives are to quit work not later than 10 o'clock in the morning, and are to be prepared to go to work again at 1 o'clock. The strike from 12 to 1 o'clock is not counted on the strike time.

The walkout was ordered, according to the business agents, as "the only means of showing resentment" against the taking of a poll of the shoe factory employees of the city upon their willingness to submit all difficulties with their employer to the state board of conciliation and arbitration.

NEW MEXICO JURY FAILS TO AGREE IN WOMAN'S CASE

Albuquerque, N. M., Dec. 2.—After being out 12 hours, a jury in the federal court today reported failure to agree upon two of three counts of an indictment charging Mona Bell, of Santa Fe, with violation of the Mann white slave act.

On the third count, which charged the woman with having employed girls for immoral purposes, the jury returned a verdict of not guilty. The first two counts charged bringing two girls from Denver into New Mexico for immoral purposes.

SOUTH AFRICAN REBEL LEADER IS CAPTURED

Pretoria, Union of South Africa, Dec. 2.—An official announcement states that a command under Col. Conrad Britts has captured Gen. Christiaan De Wet, leader of the rebellion against England in the Union of South Africa. The rebel commander was captured on a farm near Waterburg, a town 100 miles east of Mafeking, in British Bechuanaland.

COLORADO MAY LEASE 500 ACRES FOR INSANE

Pueblo, Colo., Dec. 2.—Members of the state insane asylum board accompanied by Gov. Ammons today visited a ranch near this city and inspected the property with a view of leasing it for the purpose of establishing a farm in connection with the institution.

It is planned to lease a tract of 500 acres and erect buildings thereon in order to relieve crowded conditions now existing in the building of the insane.

MORE BURKE CHARGES ARE FILED AGAINST U. S. EMPLOYE

New York, Dec. 2.—Additional indictments against John Burke, an employee of the Isthmian canal commission as manager of the commissary department, were returned today by the federal grand jury which has been investigating alleged frauds in the canal zone. In them Burke is charged with accepting two bribes totaling nearly \$10,000.

EIGHT RHODES SCHOLARS TO AID IN BELGIAN RELIEF

London, Eng., Dec. 2.—Ten American students at Oxford university, eight of whom are Rhodes scholars, have volunteered for service with the American commission for the relief of Belgium. They will be sent to Belgium Friday to assist Capt. W. E. Lucey in the distribution of food.

Torpedo Boat Controlled By Wireless Waves

Above: The Nathalie. Below, at left: Wireless operator controlling torpedo from shore by means of wireless waves. Below, at right: John Hays Hammond operating his Electric Dog, which may be propelled in any direction merely by holding a light directly in front of the "eyes."

United States army engineers will gather at Fresh Water Cove, Mass., in the next few days to witness the tests of the wireless torpedo boat Nathalie, invented by John Hays Hammond Jr., of Gloucester, Mass., son of John Hays Hammond, the noted mining engineer. The tests will determine whether the United States government will purchase the exclusive rights to the torpedo boat, which is controlled by wireless waves from land. These rights include the design for a wirelessly steered torpedo with an explosive carrying capacity of 4000 pounds. In preliminary tests young Hammond directed his wireless boat by means of waves transmitted from the Hammond Laboratory, a distance of 25 miles out to sea as far as the Graves' Light.

WOMAN DENIES BELGIANS PILOT; CHILD ADOPTED DUTCH KILL SIX DEFENDED, CLAIM

London, Eng., Dec. 2.—Rioting broke out in the Belgian concentration camp at Zeist, Holland, Wednesday, according to Het Volk, published at Amsterdam.

Dutch troops fired on the Belgians, killing six and wounding nine of them. No details of the occurrence are as yet available.

This dispatch is sent to London by the correspondent of Reuters' Telegram company at Amsterdam.

The trouble has been attributed to the discontent of the interned Belgians at not being allowed to receive visits from members of their families. The unrest continues and troops have been sent to Zeist from Utrecht to strengthen the guard.

REICHSTAG VOTES NEW BIG WAR LOAN FOR GERMANY

Berlin, Germany, Dec. 2.—(By way of Amsterdam, Holland.)—Aside from an address by the imperial chancellor, Dr. von Bethmann-Hollweg, the opening of the Reichstag, Wednesday, was featured by the voting of a new war credit of \$1,250,000,000. There was but one dissenting vote, that of Herr Liebrecht, Socialist. The chancellor in his address reviewed the war, placing the blame on Russia and England, chiefly.

THESE FRENCHMEN ARE CERTAINLY THE GAMBLERS

Paris, France, Dec. 2.—In the French trenches there are many amusing scenes. The French soldiers are inveterate gamblers, and being unable to find any other method of gambling, they lift sticks about the size of a broom handle above the line of the trenches and bet on the number of seconds or minutes before the stick will be shot away.

For further information of the above see page 11, column 1. of this paper.

Drop Bombs on German Cannon Factory; Escape To Lines of Allies.

BIG GUNS AGAIN ROARING AT YPRES

The Allies Claim To Have Scored Gains in Artillery Duel on Western Line.

LONDON, Eng., Dec. 2.—Saved from annihilation either by splendid German strategy or by Russian blunders, the German army in Russian Poland is for the third time endeavoring to move inland with Warsaw, the Polish capital, as the goal, according to official advices. The Germans, having thrown back a Russian enveloping movement, have held their ground firmly near Lodz and are again pressing forward. The precise situation of the contending armies is unknown. One of the latest Petrograd dispatches, referring to emperor Nicholas, has been dismissed as a fabrication at the theater of war in Russian Poland.

From Petrograd comes the report that Gen. Rennenkampf has been made the scapegoat on account of the Napoleonic coup which enabled the German forces to cut through the encircling Russian screen. According to this report, the dilatoriness of Gen. Rennenkampf in bringing up reinforcements made the success of the German move possible.

Russian forces are now reported to be within ten miles of Cracow, while the situation in France and Belgium, the Austrian stronghold left in Galicia, is declared to be desperate.

Krupp Factory Bombarded.
A dispatch to the Exchange Telegram company from Berlin to the effect that the Krupp factory at Essen, Germany, was bombarded Wednesday by hostile aviators. It is said that bombs were dropped from the aeroplanes on the buildings devoted to the manufacture of cannon. The airmen escaped uninjured and the extent of the damage has not been ascertained.

The bombardment of the Krupp gun works formed one of the chief episodes in the war arena today. Heavy exchanges of artillery fire were reported between the German forces in France and Belgium, but without decided advantage. Another feature was an announcement that British Australian and New Zealand troops had been disembarked in Egypt for training, and would later be moved into the war zone in Europe.

Artillery Exchange Is Lively.
The French official report given out in Paris this afternoon says that Wednesday there was a rather lively artillery exchange at Neuve Chapelle, to the south of Ypres, and that a heavy bombardment took place to the west of Lens. In the Argonne several German attacks were repulsed. Otherwise the situation shows little change.

The text of the communication follows:

"In Belgium there was a rather lively artillery fire directed against Neuve Chapelle and to the south of Ypres. The intentions have been extended to the south of Dixmude."

Further Vigorous Cannonade.
"From the Lys to the Somme there has been a vigorous bombardment, particularly at Aix-Noulette to the west of Lens."

"There was quiet along the entire front from the Somme to the Aisne and in Champagne."

"In the Argonne several attacks on the part of the enemy were repulsed and we made slight progress. In the Woëvre district the German artillery evidenced a certain activity, but with insignificant results."

"In Lorraine and in the Vosges there is nothing important to report."

Russians Begin Railroad.
The Petrograd correspondent of the Times points out that by retaking the Strkovo, the Russians have regained possession of the Lodz-Warsaw railway. He adds:

"There is no perceptible alteration in the relative positions of the opposing armies in Poland and the German army is still in the vicinity of Lodz. The situation remains extremely interesting and hazardous."

Enemy Could Safely Shell Forts.
The big ships of Germany and England, he said, could shell the forts protecting New York and still be a mile and a half outside the range of the coast guns.

"Suppose any army then should land," he continued. "We haven't even a barbed wire fence to turn them off. We have only 40,000 men in the regular army. We have 110,000 in the militia. Last year the militia proved its inefficiency when 60 percent could not qualify and 30 percent did not even try."

Poverty of Ammunition.
There are only seven serviceable aeroplanes in the navy and about 11 in the army, he said, and there are no dirigibles. One of the most expert officers in the army recently told him that the congressman said that there is not enough ammunition in the United States to supply all the guns for one day. Of long range torpedoes, he said, there are only 58 in the navy.

Cites Alleged Tactical Error.
The military commentator of the Novoye Vremya draws attention to what
